

# Non-Degree Student

Admission as a non-degree student enables students to take a limited number of credit courses (either full-time or part-time). Students in this status are not pursuing a degree but may wish to earn a certificate or take courses for job achievement, personal enrichment, intellectual curiosity, or other personal reasons. Students cannot receive a degree in non-degree status.

Non-degree students must meet all pre-requisites for courses (or obtain permission from the instructor). All fees, deadlines, and performance standards for degree students apply to non-degree students.
